

Annual Scientific Meeting 2018 Report

Asthma UK Centre for Applied Research

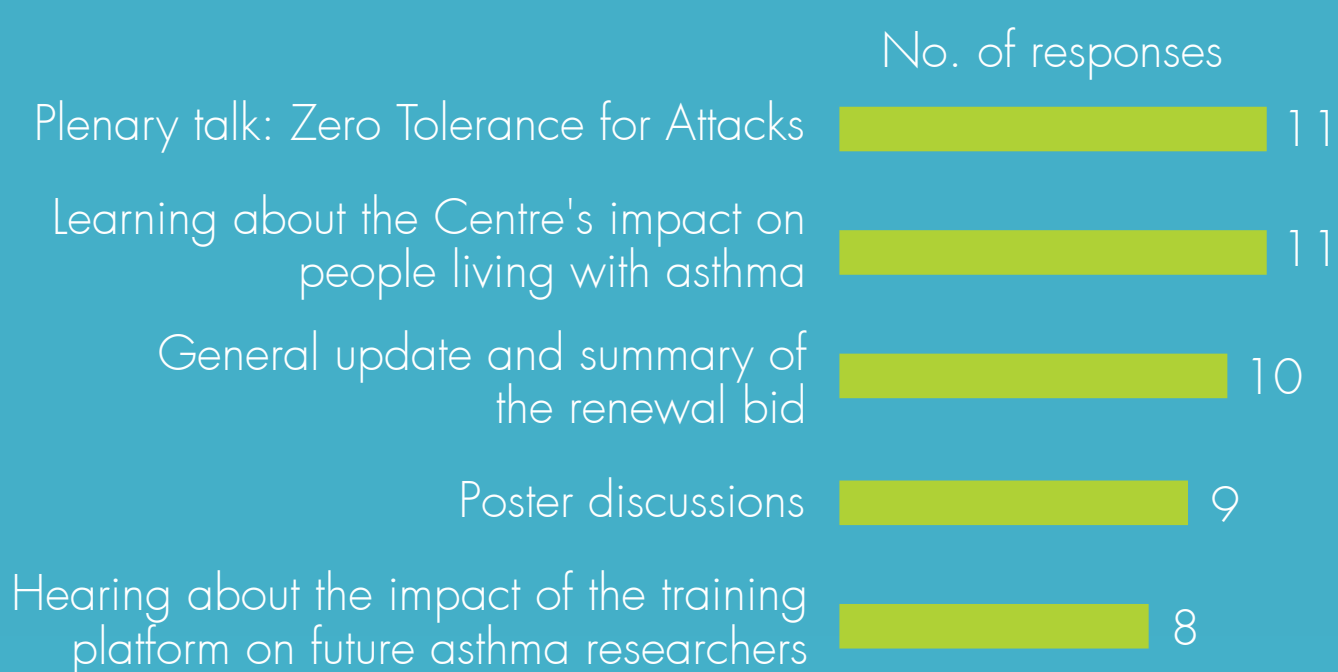

23-24 January M Shed, Bristol

74 delegates. 2 days.

#ASMM18

Most useful aspects of the meeting

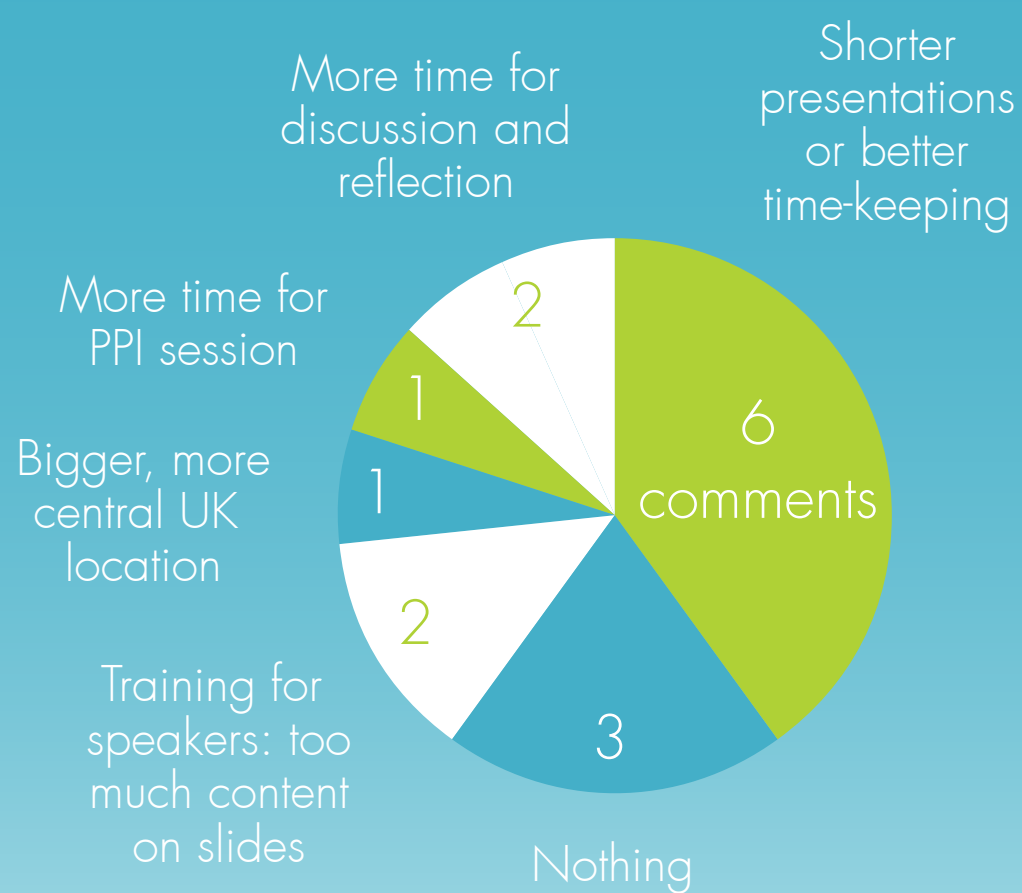

Most useful sessions

- ✓ Meeting the Patient and Public Involvement members and gaining greater understanding of the PPI role
- ✓ Networking
- ✓ Learning more about asthma and current asthma research

Suggestions for future meetings

- ✓ More nurses invited to speak and take part
- ✓ Workshops e.g. a workshop about communicating our messages to the public effectively
- ✓ Speakers to direct one question each to the PPI group
- ✓ Grant writing and applications
- ✓ Pharmacist session
- ✓ Expertise/funding for implementation research
- ✓ Time to meet with PhD students
- ✓ More health technologies

Suggestions for improvement

Final comments

A brilliant meeting. Very enjoyable, thank you!

It would be useful for speakers to have guidance on font size for slides.

Very informative and enthusing meeting.

Really enjoyed the conference. Some sessions were a little long.

Excellent talks from Luke Daines and Dermot Ryan.
